The Tie Hack Cabin

The Tin House

Description of Rentals:

The Tie Hack Cabin (1 br/1 bath – sleeps 4):

Cabin from Dubois' area tie hack history! This historic Tie Hack Cabin was moved from the mountains many years ago and preserved. The cabin has been recently decorated with a western theme and is ready to accommodate you! Upon entering the foyer/mudroom, one walks into a bedroom with a queen sized log bed and sitting area. A cozy den with a sleeper sofa & wing-back chair adjoins the bedroom. Both bedroom & den have t.v.'s with satellite service, telephone & wireless service for your personal computers. A small library is located in the cabin's sunroom with a nice collection of western books & board games for the visitors' enjoyment. In front of the cabin is an outdoor sitting area underneath century old cottonwood trees. Just down a stone path and only a hop, skip & a jump from the cabin is Horse Creek where guests can enjoy the large deck, rocking chairs, swing & firepit overlooking the creek.
